The Securitas Accredited Partner in Greece

# NEOS

NEOS SECURITY is a security services company.

Its foundation occurred from the participation of persons with many years of experience in the field of physical, technical and digital security. Our executives have been active in key infrastructures (embassies, multinational groups, etc.) of the security field. We have excellently trained and specialized Security staff on the front line.

The closest associates of our company are acclaimed people in the security field, a fact that consolidates the prestige and trust of our company in the demanding security sector.

The high level of services we provide in combination with the application of new technological methods and innovative solutions, offer our customers multilateral approaches to security issues.

Through the exploitation of modern systems and applications, we have the ability to respond quickly and accurately to the needs of our customers, creating two-way relationships of honesty and consistency.

Our Fundamental Principles are based on Confidentiality, Responsibility, Reliability, Ethics and Customer Commitment.

Our concern is to keep high the ideals that compose a complete professional profile and an excellent quality of services provided at the lowest possible cost.

At NEOS Security we want to be judged by the result.

Our goal is the maximum satisfaction of customer needs, based on our principles
